

AUWELD MIG 160GS MIG Welding Machine 1PH/220V

Description

The **MIG 160GS** offers more than you would expect from a welder this size. It packs the full punch of a heavyweight professional that you can take to the most demanding job sites. It's using advanced inverter technology to transfer 50/60Hz power frequency electric.

Specification

Model	MIG 160GS
Welding Process	MIG (GMAW)
	MMA (SMAW)
	LIFT TIG
Input Power Voltage (V)	Single Phase
	AC 220V±10% (50/60 Hz)
Rated Input Power Capacity (kVA)	—
Output Current Voltage (A)	40 – 120
No-Load Voltage (V)	50
Duty Cycle (%)	60
Dimension (mm)	340 x 145 x 250

Model	MIG 160GS
Industrial Application	Maintenance Repair, Semi-Industrial Welding

Features

- This highly developed digital controlled welder unit adopt **Advanced Chip Programmed Inverter IGBT technology**
- **Non-Gas MIG Welding**
- **MMA Welding & Lift TIG Welding**
- **Portable Design** and wire spool takes maximum 1kg wire
- Wire Speed and Working Voltage **are automatically matched at optimal status**
- The incredible welder always ensures Excellent Performance and High Reliability
- **Ideal for** home use, DIY, workshop and all the way up to semi-industrial welding purpose

Include Items

- 1 pc MIG Torch (1.6m)
- 1 pc Welding Cable with Earth Clamp (1.3m)
- 1 pc Welding Cable with Electrode Holder (1.5m)
- 1 pc Chipping Hammer
- 1 pc Welding Hand Shield
